Market growth and a constant client demand foster new product development designed to meet this demand.

The cooperation between **FAZI D.O.O.** and **MOZZART A.D.** combines a long-standing tradition in engineering, planning, production and design on the one hand and experience in casino management on the other.

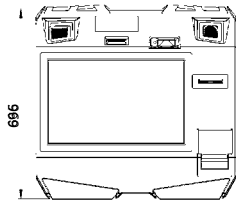

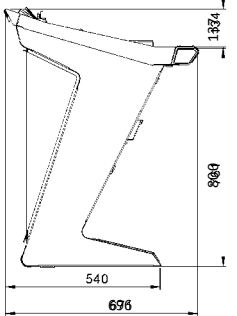

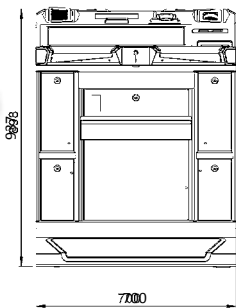

This has led to creation of a new roulette line – **KEY ONE** – a line that is truly player friendly. It is an easy-to-install, easy-to-maintain roulette with a modular design.

It is available in a wide variety of colors and materials, making it adaptable to just about any casino interior.
